## EXPLANATORY NOTES

### GRADUATE PROFILE

There are two parts to the Victoria University of Wellington graduate profile, introduced in 2014: scholarly attributes and personal qualities.

The scholarly attributes are reflected in the formal curriculum and tested through academic assessment. Victoria graduates will be scholars who:

- ▣ have a specialised understanding of their chosen field(s) of study
- ▣ exhibit well-developed skills in critical and creative thinking
- ▣ communicate complex ideas effectively and accurately in a range of contexts
- ▣ demonstrate intellectual autonomy through independence of thought, openness to ideas and information, and a capacity to manage their own learning
- ▣ demonstrate intellectual integrity and understand the ethics of scholarship.

The personal qualities are associated with the experiences and opportunities that being a Victoria student provides an individual. Victoria graduates will be active and engaged global citizens who:

- ▣ demonstrate international perspectives
- ▣ can engage constructively with their local and international communities
- ▣ are able to work both independently and collaboratively with others and
- ▣ know how to set and achieve personal and professional goals for themselves.

### TRANSCRIPT POLICY

Until 1962, all universities in New Zealand were constituent colleges of the University of New Zealand. Since 1963, they have been autonomous institutions but it is still common practice for a New Zealand university student to transfer to another university within New Zealand, even while pursuing a degree. Until 1997, the official academic record of a university student in New Zealand transferred automatically with the student. From 1998, academic records have not been transferred and students are responsible for obtaining a copy of their academic record from each university they have attended.

### UNDERGRADUATE DEGREE STRUCTURE

Victoria University of Wellington adopted a credit system in the 1970s. Prior to this, the undergraduate courses were taught in units at Stage I (first year), Stage II (second year) and Stage III (third year). The LLB degree was taught in 'subjects' until 1991, after which credit values were shown. From 1998 onwards, Victoria has adopted a points system, with 120 points equating to an average full-time year of study.

### COURSE IDENTIFIERS

Courses are identified by a four-letter subject code and a three-digit number. The letters represent a subject area, or in some cases, an administrative unit. A full list of subject codes is available on the University website at [www.victoria.ac.nz/subject-codes](http://www.victoria.ac.nz/subject-codes) or in the University Calendar. The first digit represents the level of the course. The 000-level range is used for pre-degree level courses; 100-level courses are first-year or introductory courses; 200-level and 300-level courses represent advanced level undergraduate courses; Honours and Master's courses are 400- and 500-level; PhD courses are 600-level and the 800-level range is used for some certificate and diploma courses.
